	Update on community-chosen consultant review	Alistair Nairn
	Actions, Wrap Up, Next meeting	Jen Lilburn
8:30	Meeting close	

Questions on Notice as at 16/02/17

1. (For Cleanaway) Can the reporting on the flare please be consistent with that provided in 2015? In particular, they are keen to see data compared with the established standards in the same way as that provided in 2015.
2. (For EPA) Why are the standards (e.g. for Dioxins) for Victoria more lenient than those for Australia, and why are Australian standards more lenient than for Europe/the US? Helen acknowledges that this question has been asked at TLCCG before, and is interested in a response from those in EPA who set the standards.
